AND DEVELOPMENT COMMISSION**

In the Matter of:

Docket No. 12-AFC-02

Application for Certification for the
HUNTINGTON BEACH ENERGY PROJECT

**ENERGY COMMISSION STAFF'S STATEMENT
RE: REBUTTAL TESTIMONY**

Staff has received the applicant's testimony, as well as the document filed by Intervenor Rudman on June 30, 2014. Based on a review of the applicant's opening testimony, and the arguments set forth in intervenor Rudman's submission, staff notes that all necessary evidence upon which the committee can base its decision has been introduced.

Several contested issues remain, including Air Quality, Biological Resources, Cultural Resources, Water Resources, Geology, Visual Resources, Hazardous Materials, Waste Management, and Compliance Conditions. Staff notes that all testimony regarding these areas has been docketed by staff in the Final Staff Assessment and by the applicant in their opening testimony. Additionally, all of the issues raised by intervenor Rudman that are relevant to these proceedings have been addressed in the Final Staff Assessment and testimony submitted by the applicant. Staff has no new evidence to introduce at this time to supplement the record or in rebuttal, but reserves the right to submit such evidence at such time as becomes necessary.
