## BACKGROUND

On December 1, 2010, the Energy Commission adopted an Order Instituting an Informational Proceeding (Lessons Learned 10-SIT-OII-1) on issues that are critical to the licensing of power plants. Since the initiation of the OII, Commission staff has performed the following key tasks:

- 1) Compared Energy Commission staff assessments with environmental documents from other state and local agencies to understand what differences exist and whether the staff assessment, or the information gathering process to produce the staff assessment, should be revised in anyway.
- 2) Developed more in-depth training of Energy Commission staff involved in the siting process.
- 3) Held two workshops: one to discuss the Commission's siting process with stakeholders to solicit ideas for improvements and a second workshop with county and state agencies to discuss approaches toward project siting.

- 4) Performed a comprehensive review of the 1000, 1100, 1200, and 1700 sections of the Energy Commission's Title 20 regulations and developed proposed draft language that seeks to address issues raised by staff and stakeholders. The draft language covers not only the Energy Commission's siting work but also addresses Energy Commission-wide process issues.

## DRAFT LANGUAGE

An electronic link to the Energy Commission's staff proposed revisions to Title 20: Commission Process and Procedures Regulations with explanations for the proposed revisions will be distributed to the existing listserv for the original lessons learned proceeding, 10-SIT-OII-1 and via the Energy Commission's e-filing on September 30, 2014. This document will also be published to the California Energy Commission website at <http://www.energy.ca.gov/title20/2014prerulemaking>.

Energy Commission staff encourages those interested in the proposed revisions to the regulations to review the draft language and explanations and to submit comments on the draft by **Thursday, October 23, 2014**. The current Title 20 regulations can be found at: <http://www.energy.ca.gov/2014publications/CEC-140-2014-002/CEC-140-2014-002.pdf>.

## PUBLIC COMMENT

**Oral comments.** Oral comments can be made during the workshop. Comments may be limited to five minutes per speaker and will become part of the administrative record in this proceeding.

**Written comments. Written comments should be submitted by 4:00 p.m. on Thursday, October 23, 2014.** If you wish to provide comments on the draft regulatory language, please submit comments to the Energy Commission using the Energy Commission's e-commenting feature by going to the Energy Commission's TITLE 20 2014 REVISIONS webpage at <http://www.energy.ca.gov/title20/2014prerulemaking> and click on the "Submit eComment" link. A full name, e-mail address, comment title, and either a comment or an attached document (.doc, .docx, or .pdf format) is mandatory. After a challenge-response test used by the system to ensure that responses are generated by a human and not a computer, click on the "Agree & Submit Your Comment" button to submit the comment to the Energy Commission Dockets Unit.

Please note that written and oral comments, attachments, and associated contact information included within the written comments and attachments (e.g., your address, phone, email, etc.) become part of the viewable public record.

You are encouraged to use the electronic filing system, described above, to submit comments. If you are unable to submit electronically, a paper copy of your comments may be sent to:
