**RE: Abengoa Mojave Solar Project (09-AFC-5C) Petition for Modification of AQ-25**

Dear Mr. Rundquist:

On behalf of Mojave Solar, LLC (“MSLLC”), we thank you for the opportunity to review the California Energy Commission *Staff Analysis of Amendment Proposal(s)* for the Abengoa Mojave Solar Project (“MSP”), published on October 7, 2014 (“*Staff Analysis*”). The *Staff Analysis* recommends approval of MSLLC’s petition to amend Condition of Certification AQ-25 in the Final Decision for the MSP to allow for a different method of measuring the levels of total dissolved solids (“TDS”) in the blow down water from the MSP. The *Staff Analysis* also recommends minor condition language changes to AQ-26 and AQ-28 to conform the condition of certification language to permit language used by the Mojave Desert Air Quality Management District. MSLLC supports the *Staff Analysis* and recommendation for approval of the petition, and thanks the Staff for its work on the petition.

Should you have questions, please do not hesitate to contact me at (916) 447-2166.

Sincerely,

Samantha G. Pottenger
