Re: Blythe Energy Project Turndown Request
Co#: 1302 Facility#: 2262

Dear Mr. Doyle,

The Mojave Desert Air Quality Management District (District) has reviewed your November 24, 2014 request to install "turndown" upgrades on the two Blythe Energy Project Siemens V84.3A gas turbines. The District concurs that this action does not constitute a modification under District New Source Review and does not trigger a modification of the Blythe Energy Project federal operating permit (#130202262). The District therefore approves your request to install "turndown" upgrades on the two Blythe Energy Project Siemens V84.3A gas turbines (District Permits B007953 and B007954).

If you have any questions regarding this letter please contact me at 760-245-1661 extension 6726 or Chris Anderson at extension 1846.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan J. De Salvo".

Alan J. De Salvo
Supervising Air Quality Engineer
