Steve Uhler's comments on request for public comments on 2015 Integrated Energy Policy General/Scope (Docket No. 15-IEPR-01)

Energy Efficiency

Please review my comments on how to see that energy efficiency is made a way of life as described in the below video.

Energy monitoring, measure what you treasure

Please see that there are no barriers to residential real time energy monitoring.

Please carry out the promise of real time energy monitoring spoke in this SERCDC (CEC) document, on PDF page 8, second paragraph, "Investments in advanced metering..".

Scientific Modeling

Support all models with access to data source and business rules.

Check policies for unintended results

Renewable Portfolio Standard may increase Greenhouse Gases.

An example of a system using CAISO Renewable Watch and SERCDC (CEC) Appliance data, that could benefit from better access to SERCDC (CEC) data source and business rules.

Follow the instruction below to view an example.

[What Browser? - Google at http://www.whatbrowser.org](http://www.whatbrowser.org) to find out more about the browser you are running and to find more current version if one is available.

In order to reduce the size of the code in my webpages, I only supply this notice here and not in each page on my website.

By doing this, it reduces the amount of bandwidth and data consumed.

Mobile users should find this reduction in code size of value.

Scientific Review of studies

Don't accept studies on face value, insure the quality before you promote the study.

Example of SERCDC (CEC) study that does not represent the CAISO data accurately and make the SERCDC (CEC) supporting data available.
