**BEFORE THE ENERGY RESOURCES CONSERVATION AND DEVELOPMENT
COMMISSION OF THE STATE OF CALIFORNIA**

Application for Certification for the
Willow Pass Generating Station

Docket No. 08-AFC-6

**NRG WILLOW PASS LLC
QUARTERLY STATUS REPORT**

Pursuant to the Committee's Order Extending Suspension of Proceedings issued on June 10, 2014 ("Order"), NRG Willow Pass LLC ("Willow Pass") submits this quarterly status report. In the Order, the Committee suspended this proceeding until June 30, 2015 and directed Willow Pass to submit quarterly status reports beginning September 1, 2014 to ascertain progress in development of the Willow Pass Project, a 550 megawatt, natural gas-fired electricity generating facility to be located at the site of an existing power plant in Pittsburg, California.

There are no new developments to report at this time. Willow Pass and its ultimate parent, NRG Energy, Inc., remain committed to pursuing the Willow Pass Project and continue to look for opportunities to restart active development. The timing likely depends on the availability of a long-term contracting opportunity that would support financing and construction. Willow Pass will provide an update regarding any new developments in its next quarterly status report.

March 2, 2015

Respectfully submitted,

Lisa A. Cottle
