1516 Ninth Street
Sacramento CA 95814-5512
Compliance Project Manager

Subject: **EL SEGUNDO ENERGY CENTER (00-AFC-14C) AMENDMENT PROCEEDING TO REPLACE UTILITY BOILER UNITS 3 AND 4 WITH NEW GENERATION UNITS 9, 10, 11 AND 12**

STATUS REPORT 13

As previously reported, all parties agreed that edits to the Final Staff Assessment (FSA) Part A should be done and published with FSA Part B as one complete FSA Parts A and B. The combined FSA Parts A and B will also include the recent amendment approval of the Units 5 & 7 air quality conditions of certification (COCs), in order to allow for public comment and hearings on the entirety of the project.

Staff continues to work on finalizing sections of the FSA and provides the following updates.

The Air District reported to staff on March 6, 2015, that it has finalized responses to comments received from Energy Commission staff and the petitioner; however, the Air District received one additional comment from the petitioner regarding the facility generation offset relationship (gross vs. net megawatts). The Air District and the petitioner are still working on resolution of the issue. The Air District does not have a firm date for publication of the FDOC.

Staff continues to make progress responding to comments and completing the FSA sections for biological resources, cultural resources, visual resources, general conditions and alternatives. The FSA Parts A and B will be filed no later than 45 days after publication of the FDOC.
