Re: Palomar Energy Center (01-AFC-24C)  
Petition to Amend Air Quality Conditions of Certification

Dear Mr. Fong:

San Diego Gas & Electric Company (SDG&E) appreciates the California Energy Commission's review of its Petition to Amend the Air Quality Conditions of Certification for Palomar Energy Center. The petition seeks to modify certain Air Quality Conditions of Certification to be consistent with the most recent Permit to Operate issued by the San Diego Air Pollution Control District. The petition is currently on the agenda for the Commission's Business Meeting on April 8, 2015. As you and I discussed on the telephone on April 1, 2015, SDG&E would like to request that the Commission remove the petition from the agenda for the Business Meeting on April 8, 2015, and continue its consideration of the petition.

This continuance would allow SDG&E to provide more refined feedback on the Commission's proposed changes to the Air Quality Conditions of Certification. SDG&E plans to provide this more refined feedback in writing on April 16, 2015.

Thank you for your consideration of this request and for your ongoing review of the petition. Please contact me if you have any questions at (760) 432-2506 or [jdobbs@semprautilities.com](mailto:jdobbs@semprautilities.com).

Thank you,

Jason T. Dobbs
