Subject: AES REDONDO BEACH

I am a homeowner in Redondo Beach (since 1983) and have witnessed many "issues" about the power plant. I believe that AES has been a good "neighbor" throughout the years and I have supported the different plans for the development of the property. Unfortunately the "NO " people have prevailed. Thus today the property is still classified as INDUSTRIAL ZONING. We had sufficient opportunities to get a favorable development for the community and for AES. Yes, the OLD PLANT will come down and all will benefit from that. I am in support of AES being allowed to develop the property as they wish..with proper agencies approval. The need for producing power is now needed, and with increase of population will bring higher demand. In summary then, we of Redondo Beach have had our chances, and now we should support free enterprise and private property owners be allowed to move forward. I have do not have any financial involvment with AES.Thankyou, Gennaro Pupa
