"Applicant")**

1. Specifically indicate those parts of the record which should be kept confidential.

Phase I Cultural Resources Survey in Support of PG&E's Waterline Modification for the Colusa Generating Station (06-AFC-09C) Colusa County, California. Dated July 21, 2014

2. State the length of time the record should be kept confidential, and provide justification for the length of time.

This information should be held confidential indefinitely in order to protect the cultural resources identified therein.

3. Cite and discuss (i) the provisions of the Public Records Act or other law which allow the commission to keep the record confidential and (ii) the public interest in nondisclosure of the record.

The information is exempt from disclosure under the Public Records Act pursuant to Government Code section 6254.10. The public interest in nondisclosure is that disclosure may enable location of these resources by thieves, vandals, or persons conducting unauthorized collection of materials. Appendix B to the Commission's siting regulations also provides that this information be submitted under a request for confidential designation. (Calif. Code of Regulations, Title 20, Chapter 5, Appendix B, section (g)(2).

4. State whether the information may be disclosed if it is aggregated with other information or masked to conceal certain portions, and if so the degree of aggregation or masking required.

The Applicant and its consultants considered whether it would be possible to aggregate or mask the information. However, no feasible method of aggregating or masking the information could be identified that would not either disclose the information or render the information provided useless.

5. State whether and how the information is kept confidential by the applicant and whether it has ever been disclosed to a person other than an employee of the applicant, and if so under what circumstances.

The Applicant has not disclosed any of the subject information to anyone other than its employees and consultants working on the project. Moreover, this information has not been disclosed to persons employed by, or working for, the Applicant except on a confidential, "need-to-know" basis.

I certify under penalty of perjury that the information contained in this Application for Confidential Designation is true, correct, and complete to the best of my knowledge and belief. I am authorized to make this Application and Certification on behalf of the Applicant.
