<b>Docketed Date:</b>	5/22/2015

**ARFVTP: 3103 Regulation Response Form**

1. What are the possible impacts for your project with the credit discount provision and the timeframe for when you expect to generate credits.

This project is a pilot demonstration project and therefore has never relied heavily on credits to formulate a project economics to be successful. We understand though that in the future, commercial projects will be affected. Any opportunity we can take to make it easier for these projects to be built is an important one. This seems counter-intuitive to the goals of the CEC. And alternative fuels industry.

2. We would also like to provide you the opportunity to provide a statement for our record.

(We would not like to comment at this time).
