To CEC,
Wednesday 5/20/15

I have been a homeowner and resident of Redondo Beach for 34 years. During this time my wife and I have suffered from being up the hill from the Power Plant as follows:

1. Serious air pollution...our windows/screens, fruit trees, house interior, etc are covered with the black soot coming from the smoke stacks of the Plant, which they try to hide by discharging after dark.
2. Noise...even when the plant is not operational the High Pressure Release Alarm goes off at 2am with a shrieking wail that wakes the whole neighborhood up.
3. Visual Blight...instead of seeing the ocean and the beach, we see the dirty, old, rundown plant, with its smoke stacks and huge power lines blocking everyones view, coming and going in Redondo Beach.
4. AES Management...pays a very small tax amount to the City, refuses to negotiate a resonable amount, sues private citizens who complain, tries to do undercover backroom deals to rezone the property, misrepresents their proposals through slick, deceitful, marketing....in short, acts like a foreign owned, out of state company...which they are and who has no interest in the wishes or well being of Redondo Beach and its residents.

Please do NOT APPROVE A NEW
POWER PLANT —
