**RE: San Diego Gas & Electric Company's Application for Confidentiality for  
Resource Plan Forms  
Docket No. 15-IEPR-02 – Electricity Resource Plans**

Dear Ms. Rasberry:

The California Energy Commission is in receipt of an Application for Confidentiality dated May 4, 2015, submitted by San Diego Gas & Electric Company (Applicant), seeking confidential designation for the following information:

- 1) Specific categories of data, identified in the application, contained within the Electricity Resource Plan Form S-1, Form S-2, and Form S-5

Because the information is substantially similar to information previously designated as confidential during the development of prior Integrated Energy Policy Reports, this application will be considered a repeated application.

Information submitted to the Energy Commission can be deemed confidential without the need for a new application under California Code of Regulations, title 20, sections 2505(a)(1)(G) and 2505(a)(4) if you file a certification under penalty of perjury that the new information is substantially similar to the information previously granted confidentiality.

In this case, your current application will serve as your certification and the designation of confidentiality will be under the same terms as the prior designation. The information will remain confidential until December 31, 2019. In the future when submitting substantially similar information, you may take advantage of the repeated application process by providing a certification along with the data.
