## **Turf Rebates**

We need a rebate program for removing turf all over the state. Right now it is in several communities but not in Clovis. My neighbors and I would jump on the chance to remove the lawn and put in drought resistant plants. The best i have seen is the webpage from -- Turf Terminators. They apply for the rebates, do the work of removing the lawn and shrubs -- placing the new plants and re-doing the irrigation so it is underground and not subject to evaporation. This is all at no cost to the homeowner. They have figured how to to it all for a figure that comes in line with the rebates. Unfortunately, they are down south. I have contacted Clovis public utilities. They say they have no plans to start a program. i am recently retired and don't have the extra funds to do the work myself. Please let me know if there are any rebates for this that I haven't found.

Thank you.
