**1. (a) Title, data, and description of the record.**

Electricity Demand Forecast form issued by the California Energy Commission ("Energy Commission") for the 2015 Integrated Energy Policy Report.

**(b) Specify the part(s) of the record for which you request confidential designation.**

PG&E is providing the information as requested in Electricity Demand Forecast Forms 8.1a and 8.1b. This information is available to all Commissioners and to staff members on the 2015 Integrated Energy Policy Report Committee solely for their own use in the IEPR proceeding. However, PG&E is requesting confidential designation for certain information designated as confidential in Electricity Demand Forecast Form 8.1a. **As identified in bold in Section 3, below, PG&E is correcting an error in its prior Repeated Application for Confidential Designation dated June 11, 2015.**

The data for which PG&E seeks confidential designation in Form 8.1a (Electric Retail Price and Rate Forecast Form – Revenue Requirements by Major Cost Categories / Unbundled Rate Component) are clearly highlighted in yellow, and the confidential version is conspicuously labeled as Confidential.

The Energy Commission has previously granted confidentiality to the below data categories or substantially similar data in the 2013 IEPR and to additional data categories in PG&E's March 2015 IEPR submission of Form 8.1a with historic and 2015 forecast data. PG&E's request for confidentiality for this 2015 IEPR form is consistent with previous decisions for similar data. The new data being provided this year in these categories are unchanged or substantially similar to that provided in previous IEPR

submittals. PG&E requests that these categories be deemed confidential for the same reasons as presented in its prior confidentiality applications, and that this Application be considered a **Repeated Application**.

2. **State the length of time the Commission should keep the record confidential.**

PG&E requests that the following categories of information designated as confidential be kept confidential for three years from submission.

3. **Identify the specific categories of data for which confidentiality is being sought.**
