Notice of Lead Commissioner Workshop

The Lead Commissioner of Efficiency at the California Energy Commission will conduct a public workshop to seek comments from interested parties regarding water appliance *efficiency* regulations, including residential lavatory faucets and showerheads. These topics are to be considered as possible amendments to the Appliance Efficiency Regulations (Title 20, California Code of Regulations, Sections 1601 through 1608). The workshop will be held on:

Tuesday, July 28, 2015

1 p.m.

CALIFORNIA ENERGY COMMISSION

1516 Ninth Street

1st Floor, Art Rosenfeld Hearing Room

Sacramento, California

(Wheelchair Accessible)

Remote Access Available by Computer or Phone via WebEx™
(Instructions below)

Purpose

The purpose of this workshop is to provide industry, stakeholders, and the public an opportunity to respond to and discuss staff proposals to update the water appliance efficiency regulations for residential lavatory faucets and showerheads. These proposals will be posted online with a detailed agenda before the workshop.

Background

Residential Lavatory Faucets

On April 8, 2015, the Energy Commission adopted an emergency drought regulation that, among other things, set the maximum flow rate of residential lavatory faucets at 1.2 gallons per minute (GPM) beginning January 1, 2016, with no sell through of existing inventory that exceeds that standard. Plumbing Manufacturers International (PMI) has claimed that few residential lavatory faucet models currently meet this standard and has requested a one-year extension to the effective date to provide industry with time to develop and manufacture the 1.2 GPM faucets. Energy Commission staff has performed additional research into these claims and will publish its findings and any proposed regulatory changes before the workshop for public comment and to generate discussion at the workshop.

Showerhead Water Saving Opportunity

The recent emergency drought plumbing fitting and fixture regulation left the showerhead maximum flow rate unchanged at the current federal standard of 2.5 GPM. Staff has investigated the possibility of reducing the maximum flow rate to achieve additional water savings and will publish its proposal before the workshop for public comment.

Public Comment

Oral comments. The Lead Commissioner for Efficiency will accept oral comments during the workshop. Comments may be limited to five minutes per speaker. Any comments will become part of the public record for this proceeding.

Written comments should be submitted by 4:00 p.m. on July 31, 2015. If you wish to provide written comments please submit comments to the commission using the commission's e-commenting feature by going to <http://www.energy.ca.gov/appliances/2015-AAER-1/rulemaking/> and click on the "Submit eComment" link. A full name, e-mail address, comment title, and either a comment or an attached document (.doc, .docx, or .pdf format) is mandatory. After a challenge-response test used by the system to ensure that responses are generated by a human user and not a computer, click on the "Agree & Submit Your Comment" button to submit the comment to the commission Dockets Unit.

Please note that written comments, attachments, and associated contact information included within the written comments and attachments, (e.g., your address, phone, email, etc.) become part of the viewable public record.

You are encouraged to use the electronic filing system, described above, to submit comments. If you are unable to submit electronically, a paper copy of your comments may be sent to:

Public Adviser and Other Commission Contacts

The Energy Commission's Public Adviser's Office provides the public assistance in participating in Energy Commission proceedings. If you want information on how to participate in this forum, please contact the Public Adviser's Office at PublicAdviser@energy.ca.gov or (916) 654-4489 (toll free at (800) 822-6228).

If you have a disability and require assistance to participate, please contact Lou Quiroz at lquiroz@energy.ca.gov or (916) 654-5146 at least five days in advance.

Media inquiries should be sent to the Media and Public Communications Office at mediaoffice@energy.ca.gov or (916) 654-4989. If you have questions on the subject matter of this meeting, please contact Sean Steffensen, sean.steffensen@energy.ca.gov or (916) 651-2908.

Remote Attendance

You may participate in this meeting through WebEx, the Energy Commission's online meeting service. Presentations will appear on your computer screen, and you may listen to audio via your computer or telephone. Please be aware that the meeting may be recorded.

To join a meeting:

VIA COMPUTER: Go to <https://energy.webex.com> and enter the unique meeting number: 925 213 555. When prompted, enter your name and the following meeting password: **meeting@1**.

The "Join Conference" menu will offer you a choice of audio connections:

1. To call into the meeting: Select "I will call in" and follow the on-screen directions.
2. International Attendees: Click on the "Global call-in number" link.
3. To have WebEx call you: Enter your phone number and click "Call Me."
4. To listen over the computer: If you have a broadband connection, and a headset or a computer microphone and speakers, you may use VoIP (Internet audio) by going to the Audio menu, clicking on "Use Computer Headset," then "Call Using Computer."

VIA TELEPHONE ONLY (no visual presentation): Call 1-866-469-3239 (toll-free in the U.S. and Canada). When prompted, enter the unique meeting number: 925 213 555. International callers may select their number from <https://energy.webex.com/energy/globalcallin.php>.

VIA MOBILE ACCESS: Access to WebEx meetings is now available from your mobile device. To download an app, go to www.webex.com/products/web-conferencing/mobile.html.

If you have difficulty joining the meeting, please call the WebEx Technical Support number at 1-866-229-3239.

Availability of Documents

Documents and presentations for this meeting will be available online at: <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=15-AAER-01>.
