Subject: **Notice that Appointment of a Single Committee to Consider the Motions to Termination and Requests to Extend Suspensions will be Considered during the August 12, 2015 California Energy Commission Business Meeting**

This memorandum supersedes my July 9, 2015 memorandum. Consideration of Committee appointments for the Sun Valley Energy Project, the San Gabriel Generating Station, and the Willow Pass Generating Station has been moved from the July 30, 2015 to the August 12, 2015 Energy Commission Business Meeting agenda.

The proceedings for the Sun Valley Energy Project, the San Gabriel Generating Station, and the Willow Pass Generating Station have been in suspended status, formally or informally, for several years. In each proceeding, there is a pending motion from Energy Commission staff to terminate the proceeding and a request from the project applicant to extend the suspension for another 12 months.

On August 12, 2015, the California Energy Commission will consider appointing a single committee of two Commissioners to conduct a consolidated hearing on the motions and suspension requests for all three projects. The merits of the motions and extension requests will not be considered during the August 12 Business Meeting.

If such a committee is appointed, it will issue a formal notice of the hearing. In the meantime, I ask that you set aside the morning of August 26, 2015, as that is likely to be the date chosen for the hearing.

The agenda for the August 12 Business Meeting will be available ten days before the meeting at: http://www.energy.ca.gov/business_meetings/index.html. That agenda contains information about participating in the meeting via telephone and other methods.
