Project Name: GWF Tracy Combined Cycle Project

Energy Commission Docket Number: 08-AFC-7C

Energy Commission Contact Person: Joseph Douglas **Phone #:** (916) 653-4677

Project Location: San Joaquin County, California

Project Description:

GWF Tracy is a 330-megawatt combined cycle power plant facility located in an unincorporated portion of San Joaquin County, California.

Modification Description:

Petition submitted by Star West Generation, LLC to obtain alternative water supplies in case of possible curtailment. Revisions to Condition of Certification SOIL&WATER-4 allow the use of alternative emergency backup water supplies, and will assure compliance with Laws, Ordinances, Regulations and Standards, and reduce potential environmental impacts to a less than significant level by requiring offsets if groundwater is used as an emergency backup water supply.

On July 30, 2015, the California Energy Commission approved the above-described project modifications pursuant to a regulatory program certified by the California Secretary of Natural Resources under section 21080.5 of the California Public Resources Code, finding that:

1. The project will not have a significant effect on the environment;
2. Mitigation measures were made a condition of approval of the project;
3. The project is in compliance with all laws, ordinances, regulations, and standards; and
4. A statement of Overriding Considerations was not adopted for the project.

The Commission's docket files containing the Energy Commission's Final Decision and other information regarding the project are open to the public at: California Energy Commission, 1516 9th Street, Sacramento, California, 95814. This information is also available on the Energy Commission's web site—www.energy.ca.gov.
