1516 Ninth Street Siting Project Managers
Sacramento, CA 95814-5512

Subject: REDONDO BEACH ENERGY PROJECT (12-AFC-03) STATUS REPORT # 14

Per the Committee's latest Scheduling Order dated August 5, 2015, which directed parties to continue submission of status reports on the first of each month, staff submits the following in preparation for the Order's next designated Status Conference September 11, 2015.

Final Staff Assessment (FSA) Status

Staff continues to work towards completion of all remaining FSA sections. Several sections incorporate comments received from the applicant, interveners and agencies during the PSA comment period. Discussions of **Noise & Vibration** between staff, the applicant, and the city of Redondo Beach are ongoing. In response to the City of Redondo Beach's motion to compel production of technical noise data and to augment staff's analysis regarding the project's operational noise model, staff requested on August 11, 2015 that the applicant provide additional noise modeling information. The applicant provided this information on August 28, 2015 (TN: 205909). Staff is currently incorporating this information into the model and will use the results in its FSA.

Staff notes that the South Coast Air Quality Management District informed the Committee in its August 28, 2015 status report that a date for the Final Determination of Compliance (FDOC) has not been determined. The timing of the FDOC will affect when staff will be able to complete the **Air Quality** and **Public Health** sections of the RBEP FSA.
