**NOTICE OF RECEIPT
PETITION TO AMEND
THE CALIFORNIA ENERGY COMMISSION DECISION FOR THE
GWF TRACY COMBINED-CYCLE POWER PLANT (08-AFC-7C)**

On October 19, 2015, GWF Energy LLC (GWF) filed a petition with the California Energy Commission (Energy Commission) requesting approval to modify the GWF Tracy Combined Cycle Power Plant (GWF Tracy). Tracy is a 330-megawatt (MW) combined cycle generating facility that was certified by the Energy Commission on March 24, 2010, and began commercial operation on November 1, 2012. The project is located on a 16.38-acre, fenced site within the existing GWF-owned 40-acre parcel in an unincorporated portion of San Joaquin County immediately southwest of Tracy, California, and approximately 20 miles southwest of Stockton, California.

DESCRIPTION OF PROPOSED MODIFICATION

The proposed modification would allow the transport of water from the Bogetti family groundwater well located to the south, and in close proximity to GWF Tracy. The water would be delivered via truck, and there would be 9-10 round trips per day during peak plant operation. The truck route between the Bogetti family groundwater well and the GWF Tracy site is approximately 4 miles. The proposal would also require the installation of eight (8) temporary mobile storage tanks, with a capacity of 21,000 gallons each, at the location of the Bogetti Water well, and installation of one or more temporary storage tank(s) with a total capacity of 352,260 gallons at the GWF Tracy site.

ENERGY COMMISSION AMENDMENT REVIEW PROCEDURES

The Energy Commission's webpage for this facility, <http://www.energy.ca.gov/sitingcases/tracyexpansion/>, has a link to the amendment petition on the right side of the webpage in the box labeled "Compliance Proceeding." Click on the "Documents for this Proceeding (Docket Log)" option.

Energy Commission staff is currently reviewing the petition. The purpose of the Energy Commission's review process is to assess the impacts of this proposal on environmental quality and on public health and safety. The review process includes an evaluation of the consistency of the proposed changes with the Energy Commission's Decision and a determination on whether the facility, as modified, would remain in compliance with applicable laws, ordinances, regulations, and standards (20 Cal. Code of Regs., § 1769). Upon completion of its review, the staff will provide written notice of its intent to either process the proposed changes as a Staff Approved Project Modification or schedule it for consideration by the Energy Commission at a regularly scheduled Business Meeting.

This Notice of Receipt has been mailed to the Commission's facility mail list of interested parties and property owners adjacent to the facility site. It has also been e-mailed to the facility listserv. The listserv is an automated Energy Commission e-mail system by which information about this facility is e-mailed to parties who have subscribed. To subscribe, go to the Commission's webpage for this facility, cited above, scroll down on the right side of the project's webpage to the box labeled "Subscribe," and provide the requested contact information.

Any person may comment on the petition. To use the Energy Commission's electronic commenting feature, go to the Energy Commission's webpage for this facility, cited above, click on the "Submit e-Comment" link, and follow the instructions in the on-line form. Be sure to include the facility name in your comments. Once submitted, the Energy Commission Dockets Unit reviews and approves your comments, and you will receive an e-mail with a link to them.
