# CESA Recommends Action on Bulk Energy Storage

---

## Recommendations on Bulk Energy Storage:

- CPUC should coordinate state/agency actions to address barrier(s) to bulk storage
  - CPUC is logical point-agency given LTPP, Storage OIR proceedings.
  - CPUC should augment record
- Key State Agencies/players should adapt CA procurement structures not given to larger/bulk resource procurement
  - Consider longer look-ahead
  - Consider/promote different contracting and cost-allocation: multi-party, public infrastructure, or other.
  - Consider special study in TPP to value reliability and integration benefits holistically

## About CESA<sup>1</sup>:

- Advancing the roles of energy storage in electric power sector and in greening the grid through policy, education, outreach, and research.
- Member based and neutral on energy storage technologies and business models. Supports competition.
