SUBJECT: HB Confusion

COMMENTS:

Jerry,

We are concerned that you did not capture from the poor webex exchange that we will likely be conditioning Unit 2 (and 1, if it is still online) during the new HBEP CTCC commissioning period. We cannot arrive at the same level of certainty you expressed that the contemporaneous operations will never occur. And since we do not have any modeling to demonstrate no impacts, we need to be conservative. If you have any thoughts on COC language, we will entertain them. We may have some follow up questions after we digest all the responses fully. Sorry I was not able to call in during the discussion.
