RE: PRISTINE SUN LLC'S REQUEST FOR EXTENSION OF RPS CERTIFICATION
DEADLINE FOR 2065 ROGERS (CEC-RPS-ID NO. 62060A) AND 2103 HILL (CEC-RPS-ID
NO. 62066A)

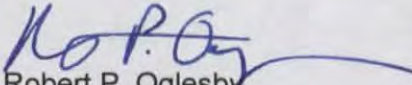

Dear Mr. Li:

This is in response to Pristine Sun LLC's October 30, 2015, request for extension of the RPS certification application deadline for the facilities mentioned in the above subject. Resolution 14-0422-11, adopted at the Energy Commission's April 22, 2014, Business Meeting, established a process to allow the Executive Director to extend and waive application deadlines for RPS certification in certain circumstances and specified the criteria and process for requesting such extensions and waivers.

Energy Commission staff has reviewed the documentation submitted by Pristine Sun LLC pursuant to Resolution 14-0422-11. Based on the explanation of the circumstances surrounding Pristine Sun LLC's inability to submit a timely application for certification and the financial consequences of not granting an extension, I have determined it is appropriate to grant an extension of the RPS certification deadline from October 9, 2013, and May 20, 2014, to December 23, 2013, and June 3, 2014, for the 2065 Rogers and 2103 Hill facilities, respectively, and to allow the original RPS eligibility date of September 24, 2012, to be retained.

Energy Commission staff will provide an RPS Certificate for the facilities that shows the original eligibility dates in the near future. If you have further questions about this matter, please contact Christina Crume at Christina.Crume@energy.ca.gov or 916-654-4674.

Sincerely,

Robert P. Oglesby
Executive Director
