## **Notice of Public Comment Period Docket No. 15-BSTD-03**

### **Application for Locally Adopted Energy Standards by the City of Davis in Accordance with Section 10-106 of the California Code of Regulations, Title 24, Part 1**

California Energy Commission staff will review and evaluate the proposed application as it relates to the 2013 California Code of Regulations, Title 24, Part 1, Section 10-106. The review of the application will determine if the application is complete and includes all the supporting information necessary to meet the requirements of Section 10-106. During this review process, staff will also be accepting public comments. The public comment period is 60 calendar days, starting from the posting of this notice and City of Davis's application package.

#### **Purpose**

At its regular meeting on December 3, 2013, the City of Davis's Council conducted a public hearing and approved a local energy ordinance mandating compliance with the Building Energy Efficiency Provisions of the California Green Building Standards Code (CALGreen), Title 24, Part 11, Tier One, in accordance with Section 10-106 of the California Code of Regulations, Title 24, Part 1. On March 1, 2016, the Davis City Council determined that mandating the CALGreen Tier 1 ordinance was cost-effective for new residential buildings as well as additions and alterations in residential buildings.

The City of Davis submitted its application with the following:

- A copy of the signed ordinance which, among its provisions, includes requirements that constitute a local energy ordinance beyond the baseline energy code.
- A staff report containing statements and analyses that conclude the proposed energy standards within the ordinance are cost-effective and will not require buildings to consume more energy than permitted by the current California Energy Code, and that includes evidence that the ordinance was approved on the first reading at a noticed public meeting; and
- A cost-effectiveness study with supporting analysis showing how the City of Davis determined the energy savings and finding that the proposed standards are cost-effective.

## Background

The California Code of Regulations, Title 24, Part 1, Section 10-106, specifies that energy standards for newly constructed buildings, additions, alterations, and repairs to existing buildings may be adopted by local government agencies provided that the Energy Commission finds that the standards will require buildings to be designed to consume no more energy than permitted by Title 24, Part 6.

## Public Comments

Written comments should be submitted by 5:00 p.m. on May 16, 2016. If you wish to submit comments on the proposal, please submit them using the e-commenting feature on the Energy Commission's webpage <https://efiling.energy.ca.gov/EComment/EComment.aspx?docketnumber=15-BSTD-03>. A full name, email address, comment title, and either a comment or an attached document (.doc, .docx, or .pdf format) is mandatory. After a challenge response test used by the system to ensure that responses are generated by a human user and not a computer, click on the "Agree & Submit Your Comment" button to submit the comment to the Commission Dockets Unit.

You are encouraged to use the electronic filing system, described above, to submit comments. If you are unable to submit electronically, a paper copy of your comments, including the docket number 15-BSTD-03 and indicating "City of Davis, Proposed Local Ordinance," may be sent to:
