 2016 Integrated Energy Policy Report Update) JOINT AGENCY WORKSHOP
 (2016 IEPR Update))
) RE: Aliso Canyon Action Plan
)

Notice of Joint Agency Workshop on Aliso Canyon Action Plan for Local Energy Reliability in Summer 2016

The California Energy Commission will jointly conduct a workshop with the California Public Utilities Commission (CPUC), the California Independent System Operator (California ISO), and the Los Angeles Department of Water and Power (LADWP) to discuss the near-term gas and electricity reliability risks to the Los Angeles Basin due to recent events at the Southern California Gas Company’s (SoCalGas) Aliso Canyon gas storage facility. The joint agency workshop will include an action plan describing the local reliability risks for the summer of 2016 and recommended near-term mitigation measures. The workshop is part of the *2016 Integrated Energy Policy Report (IEPR) Update* proceeding.

Energy Commission Chair Robert B. Weisenmiller will conduct the meeting jointly with CPUC President Michael Picker, along with representatives from the California ISO and LADWP. Chair Weisenmiller is the Energy Commission’s Lead Commissioner for electricity and natural gas issues. Other Commissioners from the Energy Commission and the CPUC may also attend and participate in the workshop. A quorum of Commissioners from the CPUC and/or the Energy Commission may be in attendance.

FRIDAY, APRIL 8, 2016
 1:00 pm
 WARNER CENTER MARRIOTT WOODLAND HILLS
 21850 Oxnard Street
Grand Ballroom
 Woodland Hills, California
 (Wheelchair Accessible)
 Seating capacity is limited to 380

Remote Access Available by Computer or Phone via WebEx™
 For details, go to www.energy.ca.gov/webcast.
 The workshop will be streamed live at <http://live.hosted.events/AlisoCanyon>.

Background

On October 23, 2015, a significant natural gas leak was detected at SoCalGas’ Aliso Canyon natural gas storage facility in well Standard Sesnon 25 (SS-25). After several unsuccessful attempts to plug the leak near the wellhead, SoCalGas began drilling a deep relief well on December 4, 2015. On December 10, 2015, the California Department of Conservation, Division of Oil, Gas and Geothermal

Resources (DOGGR) issued an order to SoCalGas prohibiting the further injection of gas into the facility.

On January 6, 2016, Governor Edmund G. Brown Jr. issued an Emergency Proclamation addressing the gas leak from the Aliso Canyon storage facility. The proclamation called on the Energy Commission, the CPUC, and California ISO to coordinate and take all necessary actions to ensure the reliability of the natural gas and electricity supplies during the moratorium on gas injections into Aliso Canyon. This joint agency coordination resulted in the creation of a joint agency reliability team. The joint agency team is also collaborating with LADWP and SoCalGas.

The CPUC, on January 21, 2016, ordered SoCalGas to reduce the working gas level at Aliso Canyon to 15 billion cubic feet (Bcf) – approximately 17 percent of its 86 Bcf working gas capacity. This low level of working gas, along with the uncertainty of future injections, compounded concerns about system reliability and public health and safety.

On February 1, 2016, the joint agencies sent a letter to Governor Brown indicating that studies were underway, along with a reliability action plan that would be discussed during a public workshop in April 2016. The reliability action plan will identify issues, risks, and needed steps to mitigate regional reliability risks for summer 2016.

SoCalGas' relief well drilling and plugging efforts successfully stopped the leak on February 12, 2016. On February 18, 2016, DOGGR confirmed that the SS-25 well had been permanently sealed and removed from service. The various orders mentioned above can be found at www.conservation.ca.gov/dog and the letter from the joint agencies to Governor Brown is available at [http://docketpublic.energy.ca.gov/PublicDocuments/16-IEPR-02/TN210801_20160322T100019_212016_Letter from CECISOCPU to EGB.pdf](http://docketpublic.energy.ca.gov/PublicDocuments/16-IEPR-02/TN210801_20160322T100019_212016_Letter_from_CECISOCPU to_EGB.pdf).

Agenda

The workshop will focus on energy reliability in summer 2016. The staffs of the Energy Commission, CPUC, California ISO, and LADWP will present the draft paper titled “Aliso Canyon Action Plan to Preserve Gas and Electric Reliability for Los Angeles Basin” (Action Plan). The Action Plan includes staff recommendations for near-term mitigation measures to improve the reliability of the Los Angeles basin energy system for summer 2016.

The workshop will include a panel by utility representatives to provide their perspectives on the Action Plan. A panel representing large-scale energy users will also provide comments. Finally, there will be an opportunity for public comments.

The agencies plan to hold another workshop focused on the 2016-2017 winter assessment and Action Plan in late summer or early fall. Discussion of the role of gas storage facilities and natural gas infrastructure in the state's long-term greenhouse gas reduction strategies is not a topic of this workshop. Those issues and long-term solutions to provide reliable natural gas and electricity service in the Los Angeles Basin if Aliso Canyon is not available will be addressed at workshops in 2017.

Public Comment

Oral Comments: Commissioners will accept oral comments from the public at the end of the workshop. We will endeavor to allow each speaker up to 3 minutes during the public comment period, but the time could be reduced to 1 minute in an effort to accommodate as many speakers as possible. Any comments will become part of the public record in this proceeding. You may

make comments in person or remotely. You may make comments remotely by using the WebEx conferencing system or phoning into the meeting following the instructions given in the section on "Remote Attendance."

Written Comments: Written comments should be submitted to the Dockets Unit by **4:00 p.m. on April 22, 2016**. All written comments will become part of the public record of this proceeding.

For the 2016 IEPR Update, the Energy Commission is using an electronic commenting system. Visit the website at http://www.energy.ca.gov/2016_energyppolicy/ and click on the "Submit e-Comment" link in the "Proceeding Information" box. From the drop down menu, please select the appropriate docket number. For this workshop, please select docket **16-IEPR-02 – Natural Gas**.

This will take you to the page for adding comments to that docket. Please enter your contact information and comment title. Under "subject(s)," select the appropriate workshop date "IEPR 2016-04-08 Workshop" and "IEPR public comments." You may include comments in the box titled "Comment Text" or attach a file with your comments. Attached comments must be in a Microsoft® Word (.doc, .docx) or Adobe® Acrobat® (.pdf) formatted file.

The Energy Commission encourages use of its electronic commenting system, but written comments may also be submitted by e-mailing them to the Dockets Office, or by U.S. Mail to:

California Energy Commission
Dockets Office, MS-4
Re: Docket No. 16-IEPR-02
1516 Ninth Street
Sacramento, CA 95814-5512

If you choose not to use the electronic filing system, please include the appropriate docket number on any e-mailed or written comments. Comments may be e-mailed to docket@energy.ca.gov and copy the technical lead, Lana Wong, by e-mail at Lana.Wong@energy.ca.gov.

Please note that your electronic, e-mailed, written and oral comments, attachments, and associated contact information (for example, address, phone, and e-mail) become part of the viewable public record. Additionally, this information may become available via Google, Yahoo, and other search engines.

Public Adviser and Other Commission Contacts

The Energy Commission's Public Adviser's Office provides the public assistance in participating in Energy Commission proceedings. If you want information on how to participate in this forum, please contact the Public Adviser, Alana Mathews, by e-mail at PublicAdviser@energy.ca.gov or (916) 654-4489, or toll free at (800) 822-6228.

If you have a disability and require assistance to participate, please contact Lou Quiroz by e-mail at lou.quiroz@energy.ca.gov or (916) 654-5146 at least five days in advance.

Media inquiries should be sent to the Media and Public Communications Office by e-mail at mediaoffice@energy.ca.gov or (916) 654-4989.

If you have questions on the technical subject matter of this meeting, please contact Lana Wong, by e-mail at ana.wong@energy.ca.gov or (916) 654-4638. For general questions regarding the IEPR proceeding, please contact Raquel Kravitz, IEPR project manager, by e-mail at raquel.kravitz@energy.ca.gov or (916) 651-8836.

The service list for the *2016 IEPR Update* is handled electronically. Notices and documents for this proceeding are posted to the Energy Commission website at www.energy.ca.gov/2016_energypolicy/.

When new information is posted, an e-mail will be sent to those on the energy policy e-mail listserv. We encourage those who are interested in receiving these notices to sign up for the listserv through the website at www.energy.ca.gov/listservers/index.html. The listserv is titled "energypolicy."

Remote Attendance

There are two methods for remotely viewing the workshop:

1) Livestream: The workshop will be streamed live at <http://live.hosted.events/AlisoCanyon>. Using this option, viewers will be able to see and hear the speakers and presentations, but will not be able to participate in the meeting during the public comment portion of the meeting.

2) WebEx: Another option is to participate in this meeting through WebEx, the Energy Commission's online meeting service. Presentations will appear on your computer screen, and you may listen to the audio via your computer or telephone. Video of the speakers will not be available through WebEx. If you are interested in making comments during the public comment portion of the workshop, you will need to join the meeting via WebEx or phone into the meeting following the instructions below.

Please be aware that the meeting will be recorded.

To join the meeting:

VIA COMPUTER: Go to <https://energy.webex.com> and enter the unique meeting number: **929 526 516**. A password is not necessary to join the meeting.

The "Join Conference" menu will offer you a choice of audio connections:

1. To call into the meeting: Select "I will call in" and follow the on-screen directions.
2. International Attendees: Click on the "Global call-in number" link.
3. To have WebEx call you: Enter your phone number and click "Call Me."
4. To listen over the computer: If you have a broadband connection, and a headset or a computer microphone and speakers, you may use VoIP (Internet audio) by going to the Audio menu, clicking on "Use Computer Headset," then "Call Using Computer."

VIA TELEPHONE ONLY (no visual presentation): Call (866) 469-3239 (toll-free in the U.S. and Canada). When prompted, enter the unique meeting number: **929 526 516**. International callers may select their number from <https://energy.webex.com/energy/globalcallin.php>.

VIA MOBILE ACCESS: Access to WebEx meetings is now available from your mobile device. To download an app, go to www.webex.com/overview/mobile-meetings.html.

If you have difficulty joining the meeting, please call the WebEx Technical Support number at (866) 229-3239.

Availability of Documents

Documents and presentations for this meeting will be available online at:
www.energy.ca.gov/2016_energypolicy/.
