Docket Number: 15-AFC-02

Please don't build in the flood plain

The County is not supposed to allow building in the 100-yr floodplain. So WHY IS AN ELECTRIC POWER PLANT EVEN BEING CONSIDERED in the 100-yr floodplain? The proposed Calpine electrical plant location is at the end of Mission Rock Road smack in the middle of the blue zone on the map. Guess what the blue is? It is the floodplain! Will the County stand by its policy? I hope so!

California Energy Commission (CEC) please DO NOT GIVE the Calpine request an early permit approval.
