## **The Aftermath of the Gas Blowout**

Dear Ms Wong,

I believe more research needs to be done.

I believe the mercury leaks in Simi are also a danger elsewhere.

I believe there is gas leaking and other fumes leaking out in Oxnard, Santa Paula. Please check along the river for methane and other soil borne pollutants.

We know about the oil waste truck that exploded in Santa Paula.

Please don't let this be the next Flint-style disaster. Please be the hero that protects us from the greedy industrialists.

Thank you.

-Mina Nichols
