California Energy Commission
1516 Ninth St
Sacramento, CA 95814-5512

Docket # 08-AFC 9C

We do not need any more pollution floating around the Antelope Valley. This proposed power plant is not needed. Especially since it will be close to schools where children are outside running and playing breathing in those fumes that will be emitted. Also there are many homes within walking distance. It will be another Porter Ranch debacle where people are ill from gas emissions, homes penetrated with gas fumes and serving no need. Automobiles require smog checks regularly and this company wishes to put more gas emissions to pollute our air – there is no justice to this insane project?. Stop it now.

The Martin Family
