SACRAMENTO, CA 95814-5512  
www.energy.ca.gov

**NOTICE OF RECEIPT  
PETITION TO AMEND  
THE CALIFORNIA ENERGY COMMISSION DECISION FOR THE  
ROSEVILLE ENERGY PARK (03-AFC-1C)**

On March 28, 2016, the City of Roseville Electric Department filed a Petition to Amend the Air Quality conditions of certification in the California Energy Commission's Final Decision, as amended, for the Roseville Energy Park, pursuant to Condition of Certification **AQ-SC9**. The 160-megawatt project was certified by the Energy Commission on April 13, 2005, and began commercial operation in October 2007. The facility is located in the City of Roseville, in Placer County.

**DESCRIPTION OF PROPOSED MODIFICATION**

Roseville electric is requesting the following modifications:

1. Change the conditions of certification to refer to the turbines as Siemens SGT800 turbines, rather than Alstom GX100 turbines. The Final Decision approved the installation of either the Alstom GTX100 gas turbine generator or the General Electric LM6000PC Sprint gas turbine generator. The Final Decision included Air Quality Conditions of Certification that were applicable dependent on which gas turbine generator was selected. Roseville Electric elected to install two Alstom GTX100 gas turbine generators, which were renamed as the Siemens SGT800.
2. Eliminate those conditions that are expressly applicable to the GE LM6000 PC, which were not installed.
3. Delete Air Quality Condition of Certification **AQ-13** as it is no longer needed since the limitation of the hours of operation set forth in this condition of certification is more restrictive than the hourly limit. Roseville Electric requests that this change be approved contingent upon the corresponding changes in the Title V Operating Permit and Permit to Operate being approved.
4. Modify Air Quality Condition of Certification **AQ-51** to conform this condition of certification to a requested revision in the Title V Operating Permit and Permit to Operate. The Permit to Operate for the project inadvertently omitted language regarding replacement, repair, and reconditioning of the Selective Catalytic Reduction (SCR) catalyst following an ammonia slip. Roseville Electric has requested that the Placer County Air Pollution Control District amend the Title V Operating Permit and Permit to Operate to incorporate such language, and has proposed that the SCR catalyst be replaced, repaired, or reconditioned within 24 months of an ammonia slip exceeding 7ppm.

## ENERGY COMMISSION AMENDMENT REVIEW PROCEDURES

Air Quality Condition of Certification **AQ-SC9** provides that the Compliance Project Manager, in consultation with the Placer County Air Pollution Control District, may approve any change to a condition of certification regarding air quality if the following requirements are met:

1. The Project remains in compliance with all applicable laws, ordinances, regulations, and standards;
2. The requested change clearly will not cause the Project to result in a significant environmental impact;
3. No additional mitigation or offsets will be required as a result of the change;
4. No existing daily, quarterly, or annual permit limit will be exceeded as a result of the change; and
5. No increase in any daily, quarterly, or annual permit limit will be necessary as a result of the change.

Energy Commission staff is currently reviewing the request to ensure it meets the above mentioned requirements in **AQ-SC9**. The purpose of the Energy Commission's review process is to assess the impacts of this proposal on environmental quality and on public health and safety. The review process includes an evaluation of the consistency of the proposed changes with the Energy Commission's Decision and a determination on whether the facility would remain in compliance with applicable laws, ordinances, regulations and standards (20 Cal. Code of Regs., § 1769). After the staff has completed its independent review and analysis of this request, it will publish its assessment for public review and comment.

The Energy Commission's webpage for this facility, <http://www.energy.ca.gov/sitingcases/roseville>, has a link to the amendment petition on the right side of the webpage in the box labeled "Compliance Proceeding." Click on the "Documents for this Proceeding (Docket Log)" option.

This Notice of Receipt has been mailed to the Energy Commission's facility mail list of interested parties and property owners adjacent to the facility site. It has also been e-mailed to the facility listserv. The listserv is an automated Energy Commission e-mail system by which information about this facility is e-mailed to parties who have subscribed. To subscribe, go to the Energy Commission's webpage for this facility, cited above, scroll down the right side of the project's webpage to the box labeled "Subscribe," and provide the requested contact information.

Any person may comment on the request. To use the Energy Commission's electronic commenting feature, go to the Energy Commission's webpage for this facility, cited above, click on the "Submit e-Comment" link, and follow the instructions in the on-line

form. Be sure to include the facility name in your comments. Once submitted, the Energy Commission Dockets Unit reviews and approves your comments, and you will receive an e-mail with a link to them.

Written comments may also be mailed or hand-delivered to:

California Energy Commission  
Dockets Unit, MS-4  
Docket No. 03-AFC-1C  
1516 Ninth Street  
Sacramento, CA 95814-5512

All comments and materials filed with and approved by the Dockets Unit will be added to the facility Docket Log and become publicly accessible on the Energy Commission's webpage for the facility.

If you have questions about this notice, please contact Mary Dyas, Compliance Project Manager, at (916) 651-8891, or by fax to (916) 654-3882, or via e-mail at [mary.dyas@energy.ca.gov](mailto:mary.dyas@energy.ca.gov).

For information on participating in the Energy Commission's review of the petition, call Alana Mathews, Public Adviser, at (916) 654-4489 or (800) 822-6228 (toll-free in California) or send your e-mail to [publicadviser@energy.ca.gov](mailto:publicadviser@energy.ca.gov). News media inquiries should be directed to the Energy Commission Media Office at (916) 654-4989, or by e-mail to [mediaoffice@energy.ca.gov](mailto:mediaoffice@energy.ca.gov).
