Subject: Re: Joint Energy Workshop inquiry Thank you very much. I'm not involved in any law suits, but have lived in the valley most of my life and educate as much as possible on climate change while in between jobs, which included attending your CEC Joint Energy Workshop on April 8. I was incredibly impressed with Sen Pavley's presentation and trying to help the community realize we have tangible clean, renewable energy solutions.

Thank you again for responding, and for the agenda.

Kindest regards,

Elena

P.S. I also trained with our former Vice President, Al Gore, last year, and received my Climate Reality Project leadership certificate. I'd be most grateful, as would our community, for another Joint Energy Workshop to be held here soon in the valley.
