Notice of Lead Commissioner Workshop 2019 Time Dependent Value of Energy and Life Cycle Cost Methodology

Commissioner Andrew McAllister, the California Energy Commission's Lead Commissioner on Energy Efficiency, will conduct a workshop to present proposed revisions to the Time Dependent Valuation (TDV) of energy and Life Cycle Cost (LCC) methodology for the *2019 Building Energy Efficiency Standards* (Standards). Other Commissioners may attend and participate in this workshop. The workshop will be held on:

Friday, July 15, 2016
9:00 a.m.
CALIFORNIA ENERGY COMMISSION
1516 Ninth Street
First Floor, Charles Imbrecht Hearing Room
Sacramento, California
(Wheelchair Accessible)

(Instructions below)

Agenda

This workshop will contribute to the pre-rulemaking and rulemaking phases of the development of the Standards. The workshop will include a presentation of the proposed 2019 TDV of energy and the 2019 LCC methodology update. The proposed 2019 TDV and LCC will be used to evaluate proposed measures for the 2019 Standards update.

The Energy Commission will consider input from this workshop, together with information from the workshop held on May 12, 2016; reports generated by Energy Commission consultants, and docketed comments regarding the 2019 TDV and LCC methodology.

Background

The Energy Commission began its pre-rule making for the 2019 Standards update with the development of an updated TDV of energy and LCC methodology. The TDV values energy use differently based on the hour of the year to reflect the cost to consumers, the utility system, and society. The Commission's Standards are required to be cost effective and are implemented on a prescriptive and performance basis. The Commission uses TDV energy to set the maximum energy budgets for residential and nonresidential newly constructed buildings, and to value the energy performance tradeoffs made in building designs. The Commission uses the LCC methodology to determine the cost effectiveness of proposed measures.

Public Comment

Oral comments. Staff will accept oral comments during the workshop. Comments may be limited to three minutes per speaker. Any comments will become part of the public record in this proceeding.

Written comments. The comment period for this workshop ends at 5:00 p.m. on Friday, July 8, 2016. Written comments will also be accepted at the workshop; however, the Energy Commission may not have time to review them before the conclusion of the meeting. For additional information, see Standing Order re: Proceedings and Confidentiality Procedural Requirements for Filing, Service, and Docketing Documents with the Energy Commission, available at:
