This SETTLEMENT AGREEMENT AND RELEASE (“Agreement”) is entered into between California Energy Commission (Commission), with its principal office at 1516 Ninth Street, Sacramento, California 95814, and Bobsweep USA (Bobsweep), with its principal place of business at 2360 Corporate Circle, Suite 400, Henderson, Nevada 89074 collectively referred to as the “Parties.”

I. RECITALS

(1) The Commission’s Appliance Efficiency Regulations at California Code of Regulations, Title 20, Article 4, sections 1601-1608,¹ set forth the requirements to sell or offer for sale regulated appliances in California. The pertinent requirements include:

- Efficiency: The appliance meets the required efficiency standards set forth in sections 1605.2 or 1605.3.
- Marking: The appliance is correctly marked and labeled as required under section 1607.
- Certification: The appliance is certified to the Commission and appears in the Commission’s most recent Appliance Efficiency Database (Database) as required under section 1606.

(2) The Commission’s enforcement authority includes the issuance of administrative civil penalties under section 1609.

(3) Bobsweep distributes several models of robot vacuums that it sells or offers for sale in California either directly or through retailers.

(4) Bobsweep robot vacuums contain small battery charging systems that are subject to the efficiency, marking and certification requirements for this appliance class as described in paragraph I(1) above.

(5) From November 1, 2015 through May 31, 2016, Bobsweep sold or offered for sale robot vacuum units in California that were not listed in the Database, did not meet the small battery charger efficiency standards set forth in section 1605.3(w)(2) when tested using the appropriate test method as described in section 1604(w), and were not marked as required in section 1607(d)(10).

(6) Based on the above recitals, the Commission, through adjudication, could impose penalties for each violation alleged, obtain injunctive relief to prohibit Bobsweep from continuing to sell or offer for sale, non-compliant robot vacuum units in California and take any other enforcement action as allowed by law. Under section 1608(f), the Commission is also entitled to reimbursement for the cost of testing non-compliant appliances.

(7) Section 1609(b)(3) and Public Resources Code section 25402.11 (a)(2) identify the following factors the Commission shall consider when determining the amount of an administrative civil penalty:

¹ All references are to California Code of Regulations, title 20, Article 4, unless otherwise specified.

- The nature and seriousness of the violation.
- The persistence of the violation, meaning a responsible person's history of past violations of the Appliance Efficiency Regulations over the previous seven years.
- The number of violations arising from the course of conduct that is subject of the enforcement proceeding.
- The length of time over which the violation occurred.
- The willfulness of the persons responsible for the violation.
- The harm to consumers and to the state that resulted from the amount of energy wasted due to the violation.
- The number of persons responsible for the violation.
- The efforts of the persons responsible for the violation to correct the violation prior to initiation of an enforcement action by the Energy Commission.
- The cooperation, by the persons responsible for the violation, with the Energy Commission during its investigation.
- The assets, liabilities, and net worth of the persons responsible for the violation. This information will be considered to reduce the administrative civil penalty amount, should a responsible person or persons elect to provide asset, liability, and net worth documentation to the Executive Director to demonstrate that a reduction in a penalty amount is necessary to avoid an undue burden.

(8) In developing this Agreement the Commission considered the facts of the case and applied the above factors to determine an appropriate settlement. Further, in this case Bobsweep fully and timely cooperated with the Energy Commission in the investigation by notifying retailers and removing the non-compliant units from the California market, and by providing to the Commission sales data of non-compliant units. The efforts by Bobsweep saved the Commission time and resources in investigating the violations and minimized the impacts on energy consumption in California from the non-compliant units.

(9) Bobsweep is willing to enter into this Agreement solely for the purpose of settlement and resolution of this matter with the Commission. The Commission accepts this Agreement in termination of this matter. Accordingly, the Parties agree to resolve this matter completely by means of this Agreement, without the need for adjudication.

(9) Each Party to this Agreement has reviewed the Agreement independently, has had the opportunity to consult counsel, is fully informed of the terms and effect of this Agreement, and has not relied in any way on any inducement, representation, or advice of any other Party in deciding to enter into this Agreement.

(11) Each provision of this Agreement is severable, and in the event that any provision of this Agreement is held to be invalid or unenforceable, the remainder of this Agreement remains in full force and effect.

(12) The failure of any Party to enforce any provision of this Agreement shall not be construed as a waiver of any such provision, nor prevent such Party thereafter from enforcing such provision or any other provision of this Agreement. The rights and remedies granted all Parties herein are cumulative and the election of one right or remedy by a Party shall not constitute a waiver of such Party's right to assert all other legal remedies available under this Agreement or otherwise provided by law.
