WITH:	Joseph Hughes, CEC; Nelson Kerr, City of Long Beach, Department of Health and Human Services		
SUBJECT:	Alamitos Energy Center, Noise and Vibration		
<p>Staff discussed the applicability of the City of Long Beach Municipal Code sections 8.80.150 (Exterior noise limits—Sound levels by receiving land use district) and 8.80.160 (Exterior noise limits—Correction for character of sound) to the Alamitos Energy Center (AEC) with the Noise Control Officer for the City of Long Beach.</p> <p>In its comments to the Preliminary Staff Assessment (PSA), the applicant argued that “the District 1 limits are not applicable to AEC as AEC is not located in District 1”. However, the City agreed with staff’s interpretation of the rule that the project would not be allowed to cause the noise level, when measured within District 1, to exceed the noise limits for land use District 1, and that the District 1 limits are applicable to AEC when its noise levels are measured within District 1.</p>
