### **Allow Aliso Canyon to reopen safely**

Please do not jeopardize energy availability and electric reliability by forcing the Aliso Canyon gas storage facility to remain closed even after wells and storage facilities have been declared safe and operable. Once So Cal Gas has been inspected and certified safe, please allow those facilities to come back on line. Please do not wait for all wells and storage facilities to be declared safe before reopening those that have been inspected and certified safe and operable come back into use.

Thank you,

Paul Little
