G. DATA REQUESTS 101-102

Data Requests 101 and 102 request one-line diagrams of Southern California Edison's ("SCE's) Santa Clara substation both prior to and after the interconnection of the MREC. The requested information regarding the substation after interconnection will not be available until SCE's design phase occurs. This design phase will occur after the Application is approved and the project is ready to proceed to construction. Therefore, the Applicant objects to Data Requests 101 and 102 as the information is not currently available.

H. DATA REQUEST 105

Data Request 105 requests a completed California Independent System Operator (“CAISO”) Phase I and/or Phase II Interconnection Study for the MREC. Neither the Phase I nor the Phase II Interconnection Study has been completed; therefore, the requested information
