Proceedings should remain local

Thank you for your continued investigation into the Aliso Canyon Gas Blowout that occurred on October 23rd, 2015. I'm a resident of Porter Ranch and feel having the hearings for this event in a local venue would bring more of the victims to the event to testify. We feel this should be done on a weekend (as opposed to a weekday) to increase the availability of locations which can host the hearings.

It is deeply concerning to hear that people from outside of our area went to the Diamond Bar hearing to testify that everything is fine. Please do the right thing and hold this hearing locally. Thank you.
