Docket Number: 16-IEPR-02

I oppose reopening of Socal gas Aliso Cyn gas storage.

I attended the workshop on IEPR2016-08-26 and all AQMD hearings in the past since the Gas Blow out in Porter Ranch. I, first generation immigrant from Korea, along with many others first and second generation Korean immigrants who worked so hard to provide good environment for our next generation to grow up and live in PR, were relocated for many months from my house in Porter Ranch due to the failure of Socal gas and all government agencies not doing their job for so many years. We are all forced to move back into our homes few months ago. Now we all live in fear of what's going to happen next. We experience the fire (Porter ranch fire) many years ago. we all did not know how and where the fire started Now some of us know how and why through our own research not by any government agencies or Socal Gas announcement. I really want to see all government agencies, elected officials, So cal gas to be proactive in dealing with the situation to protect public safety, and health with integrity, transparency, accountability in mind to regain long lost people's trust in our Public Utilities, and all government agencies who are getting paid by our tax money to do the job of ensuring People's interest not oil and gas industries and their share holders interest. I hope you guys make the right decision. **DO THE RIGHT THING. SHUT IT ALL DOWN . WE DO NOT NEED THIS OLD STORAGE THAT HAS BEEN LEAKING FOR SO MANY YEARS. PLEASE DO NOT MAKE MISTAKE OF MAKING THE RESIDENTS OF PORTER RANCH VICTIMS OF ANOTHER DISASTER WITH KNOWING WHAT CAN HAPPEN WHEN NEXT EARTHQUAKE HIT THIS AREA. THANK YOU.**
