Subject: Notice That the Primary Purpose of the September 20, 2016, Committee Status Conference Will Be Committee Deliberation in Closed Session

On September 9, 2016, the Committee provided notice of a Committee Status Conference/Technical Expert Discussion (the September Notice). <https://efiling.energy.ca.gov/getdocument.aspx?tn=213601> The September Notice indicated that the Committee Status Conference would begin with a closed session.

The Committee has now determined that the September 20, 2016, Committee Status Conference will be for the primary purpose of allowing the Committee to deliberate in closed session. A discussion among the parties' technical experts will not take place. The technical expert discussion will be rescheduled before the end of the year.

Accordingly, the parties are encouraged not to travel to Sacramento for what will be a brief public session during which public comment will be taken and then the Committee will adjourn to a closed session. The Energy Commission's WebEx conferencing system is available for you to attend the meeting via your telephone and/or computer. Instructions may be found in the September Notice: <https://efiling.energy.ca.gov/getdocument.aspx?tn=213601>
