Subject: 01-AFC-24 AGP Amendment Application

Dr. Ali:
I am pleased to inform you that the San Diego APCD has issued the Authority To Construct (ATC) relating to the Advanced Gas Path upgrade for each of the combustion turbines at the Palomar Energy Center. Please note that conditions 50 through 55 will appear only on the ATC. As such, SDG&E requests that they not be incorporated into the current petition which also seeks to align the AQ conditions with the local permit conditions.

As always, let me know how I can be assistance.

Best,
Jason Bowman
