STATE OF CALIFORNIA

STATE ENERGY RESOURCES CONSERVATION  
AND DEVELOPMENT COMMISSION

*IN THE MATTER OF:*

**City of Pasadena Emission Performance  
Standard Compliance Filing**

**Docket No. 16-EPS-01**

**I. INTRODUCTION**

Pursuant to Public Utilities Code section 8341(e)(1), the Energy Commission established a greenhouse gases emission performance standard (EPS) of 1,100 pounds carbon dioxide per megawatt hour, as codified in Title 20 of the California Code of Regulations, sections 2900 et seq. The Energy Commission is responsible for reviewing all long-term financial commitments entered into by local publicly owned electric utilities for compliance with the EPS.

**II. FINDINGS**

a. On October 11, 2016, the City of Pasadena (Pasadena) submitted a compliance filing requesting that the Energy Commission find that Pasadena's Second Amendatory Power Sales Contract (contract) with the Intermountain Power Agency (IPA) for electricity from the Intermountain Power Project (IPP) Repowering Project (Project), which involves converting the existing coal facility to natural gas, be determined to be compliant with the EPS;

b. On October 28, 2016, Energy Commission staff submitted a review of Pasadena's filing and found it complete. Based on its review, staff recommended that the procurement be found to be in compliance with the EPS; and

c. The Energy Commission concurs with staff's recommendation that Pasadena's compliance filing is complete and that the contract with IPA, as described in the compliance filing, complies with the EPS.

### III. CONCLUSION AND ORDER

The California Energy Commission hereby adopts staff's recommendation and orders that the long-term financial commitment described in Pasadena's compliance filing complies with the Energy Commission's Greenhouse Gases Emission Performance Standard, as codified in Title 20 of the California Code of Regulations, sections 2900 *et seq.* Should the final design significantly change from the specifications provided in the compliance filing, and Pasadena does not terminate its interest in IPP, Pasadena must submit a subsequent compliance filing providing the updated information.

### **CERTIFICATION**

The undersigned Secretariat to the Commission does hereby certify that the foregoing is a full, true, and correct copy of an Order duly and regularly adopted at a meeting of the California Energy Commission held on November 9, 2016.
