Need for Local Hearings

I collected signatures on a petition seeking hearings in Huntington Beach - rather than in Sacramento - regarding the AES Power Plant, Huntington Beach. Over the course of two days in Huntington Beach, every person I talked with about this matter strongly supports said local hearings, while negatively viewing the prospect of these hearings taking place in Sacramento. Also, although residents care a great deal about this power plant matter, most of these folks are in the dark regarding just what in the heck is going on with it. Hence, there is a definite need for better communication with the public in order that they be informed about the AES plant in their neighborhood. I collected these signatures on behalf of Mr. Rob Simpson.
