Background

On January 21, 2016, LADWP filed a Letter of Appeal³ appealing the Executive Director’s decision denying LADWP’s Petition for Reconsideration of Energy

¹ The Committee consists of Chair Robert Weisenmiller, Presiding Member, and Commissioner David Hochschild, Associate Member. The full Energy Commission made this Committee assignment at an Energy Commission Business Meeting on June 14, 2016.

² This Conference follows an Energy Commission Business Meeting. If the Business Meeting runs longer than we expect, the start of the Committee Conference will be delayed. The WebEx connection will be active shortly before 2:00 p.m. whether or not the Conference start is delayed.

Commission staff's denial of LADWP's Application for RPS certification for its Scattergood, Harbor, Valley, and Haynes Generating Stations Using Biomethane from 2009 Shell and Atmos Contracts. The Energy Commission appointed the Committee to conduct hearings and other proceedings on the appeal and recommend a decision for consideration by the full Energy Commission. On July 8, 2016, LADWP filed an additional request that the Committee consider the RPS-eligibility of specified British Columbia hydroelectric generation procurements (BC Hydro request).⁴ The Committee granted that request on July 27, 2016.⁵

On January 5, 2017, the Committee released its Committee Proposed Decision⁶ on the appeal.
