Docket Number: 12-AFC-02C

Loss of energy contained in the Brine of a Desalination Plant

www.sgenenergy.com: Announcement (Quote from letter from Attorney):

“The PCT International Preliminary Examination Report for your pending PCT application, just received, finds that all of the claims in the application have novelty, inventive step and industrial application.”

Observation:

If the Brine is not immediately used by a Desalination Plant, it is potential energy that is gone forever,

Solar: sun will shine tomorrow;

Wind: wind will blow next week.

Brine: once it hits the ocean it is gone..
