Docket Number: 17-EPIC-01

relationship between "initiatives" and "anticipated solicitations", esp wrt offshore wind

Is there any correspondence between "initiatives" from presentation and "anticipated solicitations"? For instance, I am interested in developing a decision support system for holistically assessing wildlife impacts, social value sets and other constraints on California offshore wind energy development (a la <http://ecoquants.com/app/siting>), so am interested in the following:

- initiatives: [Energy Commission 2018-2020 EPIC Investment Plan Draft Funding Initiatives]
(<https://efiling.energy.ca.gov/getdocument.aspx?tn=216519>)

- Improving Performance and Cost Effectiveness of Wind Energy Technologies; Mar. 2017 – Apr. 2017; Applied Research and Development (S4); \$2.5 million

- solicitations: [Funding Solicitations for the Electric Program Investment Charge (EPIC) Program]
(<http://www.energy.ca.gov/contracts/epic.html>)

- S7.3 Evaluate Strategies to Understand and Mitigate Impacts of the Electricity System on the Environment and Public Health and Safety

Any further guidance or suggestions for applying is most welcome.
