Mr. Robert Oglesby  
Executive Director  
California Energy Commission  
1516 Ninth Street  
Sacramento, CA 95814

**Re:** Addendum to existing Application for Designation of Confidential Records, Advanced Micro Devices, Inc. ("AMD")  
Appliance Efficiency Rulemaking for Computers, Computer Monitors and Signage Displays, 11/23/2016, Docket Number 16-AAER-02

Dear Mr. Oglesby:

Pursuant to Title 20 Ca. Code Regs, §2505 (a) (4) AMD (the applicant) is seeking a confidential designation for information that is substantially similar to information that was previously deemed confidential by the Executive Director pursuant to subdivision (a)(3)(A) of §2505.

On June 2, 2015, AMD filed an Application requesting that "... information contained in an attached PowerPoint presentation, comprised of AMD proprietary technical data and designs, AMD confidential non-public future product roadmaps, AMD recommendations for discrete graphics adders, based on future product offerings and roadmaps, and AMD recommendations for desktop characterization based on future product offerings & roadmaps (collectively the "Confidential Record") be designated as confidential and exempt from disclosure under the California Public Records Act pursuant to California Government Code §§ 6254 (k) (trade secrets)" (collectively the "Original Application"). In response to that application, the Energy Commission, on June 8, 2015, granted AMD's request for confidential designation for a period of 10 years.

I certify under penalty of perjury under the laws of the State of California that the information contained in this application for confidential designation is substantially similar to that contained in the Original Application and that all the facts and circumstances relevant to confidentiality remain unchanged. I am authorized to make the application and certification on behalf of the applicant.

I respectfully request that the Energy Commission extend the original grant of confidentiality to the materials submitted with this application.

Regards,
