Dear Librarian:

DOCUMENT HANDLING FOR THE APPLICATION FOR CERTIFICATION FOR THE STANTON ENERGY RELIABILITY CENTER (16-AFC-01)

On October 26, 2016 Stanton Energy Reliability Center, LLC (SERC, LLC) (Applicant), filed an Application for Certification (AFC) to construct and operate an electrical generating facility in the city of Stanton, at 10711 Dale Avenue, Orange County, California. The facility will be located on two parcels with a combined 3.978 acres in an Industrial General zoned district of the city.

PROJECT DESCRIPTION

The facility, the Stanton Energy Reliability Center (SERC), is under the Energy Commission's siting authority. The Commission's power plant certification process examines engineering, public health and safety, and environmental aspects of power plant proposals and provides analyses pursuant to the California Environmental Quality Act (CEQA). When issuing a license, the Energy Commission is the lead state agency under CEQA and through its certified regulatory program produces several environmental and decision documents rather than an Environmental Impact Report.

The Energy Commission's siting process is open to the public and incorporates the input of the public as well as local, state, and federal agencies. To facilitate public participation in our review process, the Energy Commission has sent copies of the AFC to libraries in Stanton, Buena Park, Cypress, Garden Grove, Anaheim, Fullerton, Hawaiian Gardens, La Palma, Seal Beach, Eureka, San Francisco, Sacramento, Fresno, Los Angeles, and San Diego.

Please make the enclosed Application for Certification (AFC) available for those who may wish to be informed about the project. We request that you not allow the AFC or any of its contents to be removed from the library. To increase accessibility of the document we ask, if possible, that you cross reference it as a general reference work under the title and author categories, as well as under such subjects as "Energy Commission," "electricity," "energy/generation," "power plant siting," or any other relevant subject.

Thank you for your cooperation. If you have any questions, please contact John Heiser, Energy Commission Project Manager, at (916) 653-8236 or by e-mail at John.Heiser@energy.ca.gov or Marichka Haws, Project Assistant, at (916) 651-9106 or by email at Marichka.Haws@energy.ca.gov.

Sincerely,

Date: 05/02/2017
