Subject: **POTENTIAL STATUS CONFERENCE**

In its May Status Report, the Applicant indicated that it had withdrawn its application to the California Independent System Operator (CAISO) Cluster Study 9 and had filed for inclusion in the CAISO's Cluster Study 10.¹

Staff responded to this information, asking that the Committee consider holding a status conference on the project to review the impacts of this change on the schedule for project consideration.² Staff states that the information from the CAISO study is critical to the analysis of the project, particularly as it relates to transmission system engineering.

At this time, the Committee would like responses to the following questions from the parties and the public:

1. Is a status conference needed at this time?
2. If a status conference were to be scheduled, are there any dates or times that the parties are unavailable (e.g., prepaid vacation plans) during the month of June?

Any person wishing to respond to these questions shall file a response using the Energy Commission's e-filing system NO LATER THAN 5:00 P.M. ON MAY 12, 2017.
