1. Identification of the Information Being Submitted

SDG&E seeks confidential designation for data provided to the California Energy Commission (“Commission”). SDG&E is providing such data to the Commission as part of the 2017 Integrated Energy Policy Report (“IEPR”) (Docket No. 17-IEPR-02) process and pursuant Title 20, Section 1345 of the California Code of Regulations (“CCR”). Generally, the information for which confidential designation is requested pertains to SDG&E’s electric resource planning, energy balance resource accounting, bilateral contracts and power purchase agreements. As shown below, depending on the specific Form, the data for which confidentiality is being sought ranges over the years 2017-2026. The data is being provided in Excel spreadsheets and in total is approximately less than one megabyte in size.

2. Description of the Data or Information for which Confidentiality Is Being Sought

3. Description of the period for which confidentiality is being sought

SDG&E requests that the data indicated be kept confidential for a period of three years, or through December 31, 2019. This length of protection is required to ensure that SDG&E's detailed supply forecast data remains secure from market participants who could otherwise make competitive use of this information to the detriment of utility ratepayers. The three-year confidentiality period requested by SDG&E is consistent with the protection given to this same data by the California Public Utilities Commission ("CPUC"). Three years is adequate time for the demand forecast data to become "stale" in terms of price movement in the relevant markets, and SDG&E has no objection to the data being made public after that time.

4. Information Substantially Similar to Information Previously Deemed Confidential by the Commission Continues to Warrant Confidential Treatment

The information for which confidentiality is being sought is substantially similar to information that was previously deemed confidential by the Commission. Accordingly, attached as Attachment A to this Application is a certification, executed under penalty of perjury, stating that the submitted information is substantially similar to the previously submitted information. This certification applies to the following categories of information:

SDG&E requests that the information be designated confidential for a period of three years, or through December 31, 2019. In the 2015 Integrated Energy Policy Report (“IEPR”) proceeding (Docket No. 15-IEPR-02-Electricity Resource Plans), the Commission’s Executive Director (Robert P. Oglesby) determined that substantially similar data in the same forms qualified for confidential protection for those same time periods under Government Code § 6254. *See Response to SDG&E Application for Confidentiality for Resource Plan Forms*, Docket No. 15-IEPR-02-Electricity Resource Plans (dated June 5, 2015).

Accordingly, pursuant to 20 CCR § 2505(a)(4), SDG&E submits the following certification regarding the Commission’s prior confidentiality designations.

1. I certify under penalty of perjury that the information described above for which SDG&E seeks confidential treatment is substantially the same information as that which the Commission has previously designated as confidential in Docket No. 15-IEPR-02 and that the facts and circumstances relevant to confidentiality remain unchanged; and
2. I am authorized to make this application and certification on behalf of SDG&E.
