## **Aliso Canyon Oil Facility**

Dear Sir or Madam,

I am writing to you today in regards to the Aliso Canyon Oil Facility Storage to be permanently shut-down.

My partner's family has been living within 3 miles from the facility for the last 5 years.

In the year 2015, Aliso Canyon's oil leak was regarded as one of the largest methane gas leaks in U.S. history. This leak was going on for 6 months before any sort of "plug" was created. For the last 2 years we are still getting updates of "minor" leaks still occurring there at Aliso Canyon. Many people from the community have been complaining about headaches, nose bleeds, and my partner, whom was only 25 years old had discovered melanoma cancerous cells on his back. This is an ongoing invisible poison to the community not to mention that the facility is located directly on an earthquake fault line.

Your negligence will be recorded in history for not taking the proper steps to correct this disaster after numerous call for support from your neighborhood community.

Over the years, we have repeatedly smelled gas and called the gas company to complain -- thinking that it was a leak at our house. Now the disaster of the past few years have taken those concerns to a whole new level -- and made us more and more fearful of living in our own home and neighborhood.

Again, to have an outdated, repurposed gas storage facility this close in proximity to families and children is unconscionable! My pets are suffering numerous skin lesions as well has migraines, rashes, and hives from other members of the family.

\*To all those who have the opportunity to do the right thing at this time in history, let it be known that **THIS IS THE OPPORTUNITY NOW TO DO THE RIGHT THING**, and sadly, there may not be a second chance.\*

Regardless of what repairs or new safety protocols or policies are put in place, there can be no assurance that a storage field of this scope -- in earthquake territory -- located in the heart of high-fire danger zones -- is safe.

Thank you.

Respectfully submitted,

Siouxzen Kang
