CITY OF OXNARD'S REQUEST FOR ADJUSTMENT TO STUDY SCHEDULE
DOCKET NO. 15-AFC-01

The City of Oxnard supports the Committee's decision accepting CAISO's offer to conduct a study of local capacity requirements in the Moorpark subarea and one or more portfolios that would meet those requirements. Such an analysis will provide important information regarding whether the identified LCR need can be met with resources that do not rely on conventional gas generation, such as Puente. However, the City requests that an additional week be added to the schedule to allow the parties an opportunity to comment on CAISO's assumptions before it runs its analysis. The City proposes that the parties be given one week to comment on CAISO's study assumptions, but there would be no provision for replies or oppositions. Providing an opportunity for comment on the study will air any concerns regarding its scope before it is completed and will enable CAISO to modify the study if it believes a modification is necessary. Ultimately, because the assumptions underlying any study will influence its conclusions, making concerns known at the beginning of the process could avoid delay on the back end.
